Brief Questionnaires for Importing E-Learning Courses from Developed Countries

Contact	
Name of University	TOBB University of Economics and Technology
Name of Contact Person	Dr. Erdogan Dogdu
Address	Title: Assoc. Prof. Department: Computer Engineering School: TOBB University of Economics and Technology Street: Sogutozu Cad. 43. Sogutozu City, Country, Zip: Ankara, Turkey, 06560 Tel/Fax: +90 (312) 292 4072 Email: edogdu@etu.edu.tr Web: http://edogdu.etu.edu.tr

Subject	
Title	Emergency Management Information Systems
Course content	The development of requirements and the supporting functionality of any Information System supporting the complete preparedness lifecycle for emergency, disaster, and crisis situations for government bodies, non profits, and/or private organizations who are equally concerned with business continuity. The components of the iterative and continuous emergency lifecycle : planning, mitigation, training, alerting, response, recovery, and assessment. The course will focus on methods for extracting requirements from potential users and applying methodologies from the professional literature relevant to specifying the requirements. The resulting findings will be used to develop interface design samples that can be used as a further method for evaluating functionality by exposing them to potential users via methodologies such as task scenario design and protocol analysis.. http://web.njit.edu/~turoff/coursenotes/IS413/IS413Syllabus2006.htm
Current status of the course	In class teaching-mode, currently offered in New Jersey Institute of Tech, USA
Brief description of procedures	Course material such as lecture slides, notes, exams to be offered on the course web page, possibly in a course management system portal such as Moodle. Exams, homework assignments, projects should be collected from the student via this portal. Course teaching should be done via videoconferencing. TOBB ETU has a distance education classroom for 25 students. Teacher at NJIT

	should deliver the lectures in a similar classroom.
Desired university	New Jersey Institute of Tech, USA

Learners

Level of targeted learners	Undergraduate (4th year) and graduate students of 1st year.
Estimated number of learners	25 students every year.

Infrastructure

Computers	Describe briefly about the availability of computers to learners; 1. All students have their own laptop computers. 2. Internet access is available everywhere on the campus via wireless connections.
Internet	Describe briefly about the current availability of Internet at school and/or learners' home or work place; 1. Internet access is available everywhere at the campus, most students also have access to Internet from their dorms and homes via broadband access channels. 2. Internet access speed is 50 Mbit/s from school. 3. Outside access has two lines: one line with 50 Mbit/s and another with 8 Mbit/s. 4. 5000 USD / month. 5. Average 50-100 Kbyte/s depending on the number of concurrent users. 6. Most students have ADSL access from home and dorms, they pay about 30 USD /month for home access.

Procedures and Administration

Face-to-face meeting	Weekly meeting via videoconferencing, twice per week, two-hours each meeting.
Course credit	Yes
Estimated tuition level	To be determined

Support

Facilitator	Huseyin Cotuk Department of Information Technology TOBB University of Economics and Technology Sogutozu Cad. 43. Sogutozu, 06560 Ankara, Turkey Tel: +90-312-292-4026 Fax: +90-312-292-4180 hcotuk@etu.edu.tr http://hcotuk.etu.edu.tr
